-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 February 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 1632

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 2, 7, 9-13 and 34-36, drawn to a method for treating or preventing stroke in a human subject susceptible to intracerebral hemorrhaging comprising administering to the human subject a CD39 polypeptide having the sequence of SEQ ID No. 1 or active fragment thereof so as to inhibit ADP-mediated platelet aggregation without increasing incidence of intracerebral hemorrhage.

Group II, claim(s) 17-20 and 22-24, drawn to a method for testing a compound by administering the compound to a CD39-deficient mouse model, measuring stroke outcome, the incidence of intracerebral hemorrhage in the mouse, and measuring platelet deposition in ischemic tissue in the mouse.

Group III, claim(s) 27-33, drawn to a method for treating an ischemic disorder in a subject comprising administering to the subject a CD39 polypeptide (SEQ ID No. 1) or an active fragment thereof to inhibit ADP or ATP mediated platelet aggregation or leukocyte accumulation so as to treat the ischemic disorder in the subject.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The "special technical feature" for group I is treating or preventing stroke in a human subject susceptible to intracerebral hemorrhaging by using a CD39 polypeptide. The "special technical feature" for group II is testing a compound by administering the compound to a CD39-deficient mouse model and measuring the effect of said compound. The "special technical feature" for group III is treating an ischemic disorder in a subject comprising administering to the subject a CD39 polypeptide. Each of groups I-III has a "special technical feature" not required for other group. They do not share common special

technical feature. Thus, groups I-III do not relate to a single general inventive concept under PCT Rule 13.1.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shin-Lin Chen whose telephone number is (571) 272-0726. The examiner can normally be reached on Monday to Friday from 9:30 am to 6 pm.
